00000000 • **00000000**

A schematic diagram of a protein structure represented as a horizontal bar. A yellow rectangular box labeled 'ATP' is positioned on the left side of the bar. A red rectangular box labeled 'H₂O' is positioned on the right side of the bar. A horizontal line connects the right side of the ATP box to the left side of the H₂O box, passing through the middle of the protein bar.

A 2x4 grid with 6 brown squares in the bottom row.

5-6

2 3 ■ ■

[illegible]

A horizontal sequence of 10 brown rectangular blocks. Below the sequence, a brown arrow points to the 5th block from the left.

A horizontal number line with vertical tick marks at intervals of 1, labeled from 0 to 10. A red dot is placed on the tick mark for the number 4. A horizontal bracket is drawn above the number line, starting from the tick mark for 0 and ending at the tick mark for 4. The number 4 is written in black text above the right end of the bracket.

A diagram consisting of four vertical rectangular blocks arranged horizontally. The first block is white, the second is light gray, the third is medium gray, and the fourth is dark gray. An orange arrow points from the right side of the fourth block towards the right edge of the frame.
